Acton, MA 01720

Re: Morrison Farm History and Nature Center

Dear Mr. Bourdon,

As the Acton 2020 Implementation Committee, we are writing in support of the Morrison Farm Implementation Plan (MFIP). Acton 2020's Comprehensive Community Plan is the primary planning document for the Town of Acton, setting our Town's course for the next two decades. In April 2012, Acton Town Meeting approved the Goals and Objectives of the Acton 2020 Comprehensive Community Plan. Shortly afterwards, the Planning Board voted to accept the plan in full as a document to guide the Town of Acton for the next 15-20 years. This was the culmination of several years of work by two different committees that included working closely with planning consultants and running a robust process for gathering public feedback and input.

We feel that the MFIP is very much aligned with the goals and objectives of our Community Plan. Namely:

- Preserving and enhancing town character;
- Improving connections;
- Providing more opportunities for community gathering and recreation; and
- Supporting inclusion and diversity.

Acton 2020 endorses the Morrison Farm Committee's CPA application for funding and looks forward to this promising community gathering destination becoming a reality for our town.

Sincerely,

Acton 2020 Implementation Committee
Margaret Woolley Busse, Chair
